

# Behavioral Interviewing Questions

---

## CHANGE MANAGEMENT:

**Establishes structures and processes to manage change; aligns organization with changing and/or emerging strategies.**

1. Change is inevitable in the workplace. Describe a past event in which you helped to facilitate change in your organization.
2. Tell me about a time when you had to quickly adjust to changes in organizational or departmental priorities. How did the changes affect you?
3. What is your experience in organizational change? How have you successfully managed change?
4. What does change management mean to you?
