

Behavioral Interviewing Questions

PROJECT MANAGEMENT:

Plans and guides a project from start to finish using a methodical approach. Garneres and manages resources.

1. What is the scope of the projects you have managed? Pick one and briefly describe the process and end result. What was something unanticipated that occurred?
2. What is your preferred approach to managing a project? What are the methods and tools used? What makes you effective?
3. How have you garnered and managed resources needed for project success? Talk about a time when this was more difficult and how you overcame the obstacles?
4. How do you drive for results? What is it about your approach or ability that results in you being chosen as a project leader?
